Business Strategy Formulation and Management

Course Venue: UAE - Dubai

Course Date: From 01/11/2026 To 05/11/2026

Course Fees: 6950 GBP

Introduction

Sustainable business success depends on the ability to formulate effective strategies, allocate resources wisely, execute with discipline, and measure financial performance. In an increasingly competitive and uncertain business environment, leaders must align strategic ambition with operational excellence and financial value creation. This intensive five-day executive programme provides participants with practical frameworks for strategic thinking, competitive positioning, business model innovation, strategic execution, and financial performance management.
Drawing inspiration from globally recognised executive education approaches, including themes associated with INSEAD’s Business Strategy and Financial Performance

programmes, the course equips leaders to develop strategies that create long-term value.

Learning Objectives
By the end of the programme participants will be able to:

- Understand the principles of strategic management
- Analyse competitive environments and industry dynamics
- Formulate sustainable business strategies
- Align strategy with financial performance objectives
- Evaluate business models and sources of competitive advantage
- Make strategic investment and resource allocation decisions
- Apply financial metrics to strategic decision-making
- Lead successful strategy implementation
- Manage organisational change during strategic transformation
- Measure and improve strategic performance
